Progress Meet

Modelling subsurface mine detonation

Progress with LAMMPS

- > Installed LAMMPS through source code and cmake build; Vikas sir helped out throughout
- > Ran some example scripts from LAMMPS/Example/granular and LAMMPS/Example/min on terminal which generated a log file; so the scripts worked as expected
- > I have yet to install OVITO for simulations
- > Currently learning LAMMPS through tutorials by **EnCodeVantor** and **PARISlab@UCLA** on YouTube
